

HID[®] Prox Premier

Redesign of a Classic

The Next Chapter for HID Prox

HID Prox readers are the dependable, user-friendly access control solution of choice for organizations around the world.

Now, we've taken those reliable Prox readers and upgraded them with a contemporary design and additional features that boost operational efficiency and sustainability. HID Prox Premier features everything you love about Prox — all ready to go, right out of the box, and at a similar price point.

Welcome to leveled-up Prox — with Prox Premier.

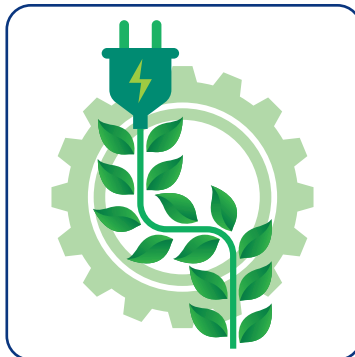

The Prox Experience You Know and Trust

Prox Premier builds on the proven Prox functionality that's been the backbone of your access control, maintaining support for 125 kHz HID Prox™, AWID and EM4102 technologies and ensuring continued compatibility with your existing Prox credentials and backend systems. The easy-to-install readers operate in a way that's familiar to your users and security staff, reducing the need for additional training.

- Supports 125 kHz HID Prox, AWID, and EM4102
- Works with existing credentials
- Maintains familiar user experience

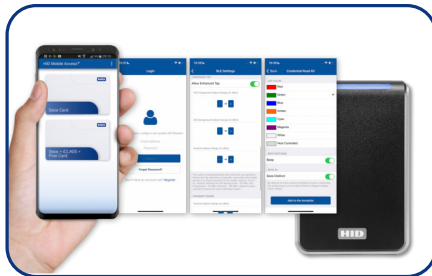

ENHANCED AESTHETICS & SUSTAINABILITY

Prox Premier features a sleek, modern design with clean lines and a minimalist design for a contemporary feel. Beyond aesthetics, Prox Premier incorporates an Intelligent Power Management (IPM) setting, significantly reducing energy consumption. The use of recycled content in its construction supports sustainability initiatives and can contribute to LEED certification efforts.

- Reduces power consumption with IPM
- Incorporates recycled materials
- Features a sleek, modern design

DELIVERS OPERATIONAL EFFICIENCIES

Prox Premier readers also feature Wiegand-based communication and support for a wide range of format options. They allow for secure upgrades without the need for physical replacement, extending their life cycle — and can be customized and managed using the HID Reader Manager mobile app.

- Enables convenient management
- Field-upgradeable
- Configured for use right out of the box

Prox Premier Reader Options

Mullion Mount (900PXNNEK20000)	Wall Switch (920PXNNEK20000)
	
At just 1.9" x 4.3" x 0.9," mullion-mounted Prox Premier is perfect for narrow door frames and tight installations. The reader can detect HID Prox ID-1 cards from 2.8" away, HID Prox tags and fobs from 1.6" and Seos credentials from 0.8." This combination of compact design and reliable functionality makes it an ideal choice for modern, space-conscious access control points.	Designed to seamlessly cover single gang switch boxes, the wall switch measures a slightly larger 3.3" x 4.8" x 1.0." It detects HID Prox ID-1 cards from 2.8" away, HID Prox tags and fobs from 2.0" and Seos credentials from 1.2." Its dimensions and wider read range make it suitable for a wide variety of installation scenarios, providing both functionality and a polished look for your access points.

SIMPLIFY OPERATIONS WITH HID READER MANAGER

Both Prox Premier models are supported by the HID Reader Manager, allowing for:

- Field upgrades to keep your readers up-to-date
- Convenient control from your mobile device

Ready to experience everything you love about Prox — but better? Visit hidglobal.com/products/prox-premier-readers or contact your HID representative to explore how Prox Premier readers can modernize your access points while working seamlessly with your existing infrastructure.
