CARD READERS

Omni® Arch Readers

Honeywell Omni Arch Series access control readers combine secure RFID, NFC (HCE) and Bluetooth® readers into one sleek and attractive modular solution, offering both flexibility and simplicity.

Overview

Feedback

Intuitive and dynamic, the Omni Arch reader solution is made up of 6 interchangeable modules based on an intelligent RFID core (Bluetooth optional) to which various interchangeable modules are connected: card reader, keypad, 1D and 2D code reader (QR Code) and 125 kHz reader to facilitate your technological migrations.

This easy and cost-saving modular approach provides the ability to upgrade all the features and security levels of your inventory of readers and lets you manage the security of your access points autonomously while helping you optimize your inventory by reducing the number of parts needed by up to 40%.
